

Experimental Aircraft Association

Chapter 23

Salt Lake City, Utah

APRIL 2010 NEWSLETTER

Minutes of Last Meeting

Friday, 12th March – the monthly Chapter Meeting included a presentation on the Cosman's project.

Next Meetings

Friday, 9th April – 7:00 pm is the monthly Chapter Meeting at the CAP Building, 640 N. 2360 W., Salt Lake City.

Upcoming Events

Wendover Workday

Saturday, 17th April – 9:00 am start - We will be installing insulation in the Service Club along with some electrical work. If we have enough volunteers we will be working on the F86, polishing. The National Guard will be there doing metal work on it also.

Bring a few tools, possibly a hammer etc. We are working on a discount on fuel for those who fly in. We would like a count of those coming because we are working with Burger King to furnish the food. Everyone who is coming should please contact Shawn, Norm or Glen.

Young Eagles

Sat, 10th July - we are hosting the Ulster, Ireland teens at Skypark. Skypark.

Articles

President's Letter

Folks,

Another EAA Chapter first for me this month on Saturday, March 20th. It was a wonderful day for flying, CAVU. Mike Guarino along with 20+ chapter member did a great job organizing our first Young Eagles rally in 2010. Over 70 kids were flown plus a few adults. It sure is fun and personally rewarding being around so many enthusiastic Young Eagles, especially seeing the smiles at the end of each flight. Thank you to all the volunteer pilots and ground crew. While at Chapter Officer training in Oshkosh in February, Norm

Anderson and I learned about a new Young Eagles follow-up program called Next Step.

In 2009 the EAA partnered with Sporty's Pilot Shop to offer interested young people an opportunity to take the next step in becoming a pilot.

Often the cost of flight training can be a deterrent. By offering this course free of charge, Sporty's has helped eliminate a barrier to training. By using the power of the Internet, students can learn at their convenience.

There are actually two components on this program, a logbook and access to an on line pilot training course.

We haven't ordered these yet for the Chapter, but Sporty's is providing a special "Young Eagles" logbook that pilots can present to their passengers following the Young Eagles flight. The logbook's first entry is designed to record the details of the flight. It also provides an opportunity for the pilot to show the Young Eagle how pilots record their flight time. In addition, pilot should encourage their Young Eagle to record other aviation experiences in the logbook, such as attending an air show or a Chapter event. It does not need to only record flight time, although the logbook is designed to meet FARs.

Along with the logbook is a unique access code each Young Eagle can use to access Sporty's Complete Pilot Training Course on line. Instructions for registering for the class are also included. This is a complete course, which will prepare students to pass the tests required for a pilot certificate – written, oral and flight tests. The course utilizes streaming video to explain what a pilot does and why, in real world conditions. Using interactive demonstrations and 3-D animation, flight maneuvers are presented in a way that is easy to visualize and understand. The course provides interactive test preparation to make the most of study time and track progress. There are no additional books or software needed to buy. As we were printing Young Eagle names on the certificate it occurred to me that the back of each certificate is blank. So we will be utilizing this space to copy all the details of the Next Step program for future Young Eagle rally's.

April look like a busy month for flying events, with the fly-out to Logan on Saturday

Thanks,
Shawn Crosgrave
